PAMELA DICKFOSS
Deputy Director
Community Care Licensing Division

The Department of Social Services is pleased to announce a new website posting information about licensed facilities throughout California. This website is housed on the Community Care Licensing Division's website and may be found at the following link: <http://ccl.d.ca.gov/PG3581.htm>

This site contains five years' worth of information on facilities, including visits, inspections and citations.

The posted information is intended to help individuals and families learn more about a facility they might be considering. We encourage the public on our webpage to never rely on this information alone to make a decision about a facility and to visit facilities in person to ensure that it meets the resident's needs.

We encourage you to become oriented to this website. If you believe there is any inaccurate data, please contact your Licensing Program Analyst or the local Regional Office. We will keep working to improve it and we appreciate your input.

California's budget, effective July 1, 2014, includes licensing resources to improve efficiencies and quality assurance. Resources were allocated to increase training and technical assistance for staff providing licensing services and oversight. The Legislature additionally approved a ten percent increase in licensing fees effective July 1, 2014. This increase will be reflected on your next licensing invoice.
